

Sarah's Mosaics

Summer Holiday Youth Masterclass: Sculpted 'Green Man' Garden Plaques (Ages 9+ Perfect for older children and teens)

£25 per maker (Sibling ticket £20)
Accompanying adults come FREE!

Time: 10:00 AM – 1:00 PM

Description:

Looking for a unique, hands-on creative activity for your older children this summer holidays? Step away from screens and join mosaic artist Sarah Barter for an exciting unique morning of 3D sculpting and mosaic design!

Young artists will learn how to mix, hold, and sculpt an expressive 3D face. Once the central face is ready, they will dive into the mosaic treasure chests to design a spectacular, wild border. Using hand-nipped fragments of colourful stained glass, raw black slate, and glistening nuggets, you will embed your mosaic pieces directly into the clay -completely skipping the need for messy glues or traditional grey grout!

Because we are working with professional sculpting materials, **children aged 9-11 must be accompanied by an adult** to act as their trusty "studio assistant." (and help with the clay kneading and supervise the safe handling of the glass fragments.)

Older children and teenagers (aged 12+) are welcome to attend independently.

Every plaque comes with a heavy-duty, professional hanging ring pre-mounted to the back, meaning your child's masterpiece will be 100% frost-proof, weatherproof, and ready to hang proudly on your garden wall or fence!

All tools and materials will be provided and included in the price.

Sarah's Mosaics

Summer Holiday Family Craft: Mosaic CD Sun-Catchers Ages: 7+ (A fantastic, low-mess family activity)

Price: £15 per child (Sibling ticket: £10) Accompanying adults come FREE!

Time: 2:00 PM – 4:00 PM

Description:

Brighten up your garden or bedroom window this summer holidays! Bring the kids along for a fun, creative, and completely stress-free afternoon crafting shimmering mosaic sun-catchers.

Using a pre-cut waterproof base, children will mount a reflective CD centre to catch the summer sunlight. Using our mess-free, kid-friendly glue system, they will design and arrange a colourful border of smooth glass nuggets, glistening beads, and vibrant mosaic tiles. They can let their imaginations run wild to create a sun-king face, a shimmering animal (like a cat or seal), or a beautiful abstract pattern!

To finish the piece, they will string together a decorative hanging using colourful beads and jewellery thread.

✨ **The Parent's Bonus:** No messy grouting at the table! At the end of the class, mosaic artist Sarah will safely pack up all the masterpieces, take them to her studio to apply a professional weatherproof grout, and return them to the centre a few days later, beautifully finished and ready for you to hang up at home.
